1419 Seeeduino Firmware Reinstallation

C:\Documents And Settings\User\Desktop\BurnInStatic\Documentation

0) Boot up the computer to the Desktop. There should be a folder on the desktop called "BurnInStatic". Open it.
   - If this folder is missing, there is a backup copy located at \\Villard\SharedFiles\jtsiao

1) Navigate to "BurnInStatic\source _1419SeeeduinoFirmware" and open **_1419SeeeduinoFirmware.ino**

2) Ensure the Seeeduino is connected to the computer via USB.

3) Click "Tools>Board>Arduino Mega (ATmega1280)"

4) Click "Tools>Serial Port>COM6"
   - If the board is not detected, try another COM port or check with Device Manager.

5) Click "File>Upload" and wait for the progress bar to finish. The status should say "Done Uploading"

6) Close the application by using "File>Quit"
